Submission Guidelines

Abstracts must be written in English, a maximum of 2'500 characters (approximately 350 words) including blank spaces for the abstract text. The abstract title and the author(s) or names of institutions are not included in the 2'500 characters. In order to make the abstract as informative as possible, please include a brief statement of the purpose of the study, the method used, the result observed, and the conclusions based upon the results. It is the author's responsibility to submit a correct abstract. Any errors in spelling, grammar or scientific facts will be reproduced as typed by the author.

Accepted abstracts will be presented as posters. Poster presenters will be asked to be present by their poster during the poster session. Authors may present free communications (oral) of own problematic or educational cases. Some of the cases may be chosen for discussions in the case presentation sessions.

Notification of acceptance

Notification of acceptance/rejection will be e-mailed in March 2012. The corresponding author will receive all correspondence concerning the abstract. The corresponding author is responsible for informing all other authors of the status of the abstract.

Publication of abstracts

Accepted abstracts will be published in a syllabus given to all registered delegates in Davos.
